

## Greening Evesham Action Plan

### Draft

#### Energy Generation & Conservation:

Investigate the use of hydro power locally

Advise residents on their home's heat loss and possible remedies

#### Healthy, sustainable transport and active travel:

Launch a car share scheme

Investigate community transport options

Lobby for better public transport

Investigate bicycle hire in the town

Continue to support cycle route provision

#### Built Environment:

See Energy generation and conservation

Also Biodiversity

#### Local Economy, Tourism & Enterprise:

Launch a buy local campaign, linking this to local food production, using a rewards scheme

Investigate the possibility of a farmers market

See WCC and WDC work

Also Evesham Prospectus

## Local Food Production & Distribution:

Investigate possible new sites for allotments

Support groups such as Vale Landscape Heritage Trust with their work on orchards

Support and advertise local seed save and share and swap days

## Waste & Recycling:

Provide a directory of local recycling facilities, including those offered by charities

Investigate Plastic Free Towns

## Biodiversity:

Provide more bird and bat boxes on ETC land where suitable

Plant more native trees on ETC land where appropriate

Increase the amount of pollinator friendly planting

Encourage the use of bee bricks and swift boxes/bricks in new buildings

Lobby for retention of orchards where possible
