### Public Questions

A report had been received from a meeting of Worcestershire County Council regarding the recent boundary review. One of the criteria for creating equality between electoral divisions was to make the number of electors in each division approximately equal. WCC were proposing that the Southern boundary between Harvington and Evesham South ward be lowered to include most of the High Street. Committee members felt that as Harvington was a mainly rural parish the proposal to move the section of Evesham Town Centre into it made little sense. A response would be submitted to the boundary review consultation outlining the committee's views.

There being no further business the meeting closed at 7.14pm
